

THE BARKLEY™
Pet Hotel & Day Spa

WHY WE RECOMMEND EXIT BATHS

Unlike at home, where dogs have their own items and sleep on the couch, at The Barkley, they share exercise and common areas with other pet guests. All areas are picked-up, disinfected, washed down and dried several times daily. However, no matter how clean we maintain our facility, this interaction, especially if weather conditions are humid or rainy, may alter your pet's natural scent.

Due to these factors, we offer discounted bathing services to all of our overnight guests and highly recommend that all pet guests be bathed before they go home. We find that pets love the attention and pampering they receive while being groomed and love all the extra attention they get at home when they are clean, look great, and smell good. Plus, owners appreciate less pet hair in their homes!

We will be happy to quote you with a bath price upon check-in.
